WORK EXPERIENCE

I-DigiTech Solution Pvt Ltd.

Intern (6 Months)

Full-Stack Developer Intern

- Engineered responsive full-stack applications leveraging the MERN stack, ensuring pixel-perfect layouts.
- Integrated secure RESTful APIs and optimized backend state synchronization between components and databases.
- Utilized Tailwind CSS and Bootstrap to design modular, highly reusable component architectures.
- Collaborated actively within an agile framework via Git/GitHub for version control and structured codebase management.

PROJECTS

NestSync Portal – Society Management Web App

GitHub: <https://github.com/Sudip294/nestsync> | Live: <https://nestsync-portal.vercel.app/>

- Developed a full-stack Progressive Web App (PWA) to digitize housing society operations, featuring JWT-secured Admin and Resident portals.
- Integrated Socket.io for real-time synchronization of complaints and notices, eliminating the need for client-side polling.
- Engineered custom features including Web-Push notifications, OTP email resets via Resend API, and a branded multi-language selector supporting 13 languages.

RailPulse – Real-Time Transit PWA

GitHub: <https://github.com/Sudip294/RailPulse> | Live: <https://rail-pulse-project.vercel.app/>

- Developed a high-performance Progressive Web Application (PWA) for real-time Mumbai commuter train tracking.
- Integrated a low-latency, real-time community chat dashboard powered by Socket.io and optimistic UI state updates.
- Debugged production mobile CSS challenges by engineering custom cross-browser backdrop filter layers.

CookMate – Recipe Platform

GitHub: <https://github.com/Sudip294/CookMate> | Live: <https://cookmate-project.vercel.app/>

- Architected a full-stack recipe platform utilizing MongoDB, Express.js, React.js, and Node.js with an animated UI.
- Implemented security measures including JSON Web Tokens (JWT) for secure session management and authentication.
- Resolved complex cross-origin challenges and engineered localized storage fallbacks for Vercel and Render hosting.
- Delivered high-efficiency functionalities including real-time global recipe searching and history tracking.

Personal Portfolio Website

GitHub: <https://github.com/Sudip294/Sudip-portfolio> | Live: <https://sudip-portfolio-project.vercel.app/>

- Designed a sleek portfolio using React.js to demonstrate frontend proficiencies and compile a live index of projects.
